Dear Jeremy Nelson,

Thank you for proposing a workshop for [WOLFcon 2024](#) at Senate House in London. I am happy to inform you that your workshop, ***Understanding and Using AI Workflows with FOLIO,*** has been accepted. The Open Library Foundation is able to offer $1000 stipend to help cover your travel or workshop planning costs. We will require an address or bank transfer information to make this payment, or we can provide a check to you at the conference.

Your workshop is scheduled for 9:00am-4:00pm on Monday, September 23 with an hour lunch break from noon to 1:00.

**Please reply to this email by May 20 to confirm this workshop to be included in the agenda.**

If you have not yet registered for WOLFcon, you can find more information, and a link to register here: https://openlibraryfoundation.org/about/wolfcon/upcoming/.

The description you submitted can be updated any time before the conference as needed. We currently have the following:
___

*This all-day pre-conference introduces Artificial Intelligence to the FOLIO community with a focus on using Generative AI with FOLIO and Okapi. Participants in the morning will survey the application and ethical considerations of using AI in libraries, ending with exercises using ChatGPT and other LLMs. The afternoon will continue the exploration of Generative AI using the Chatting with Catalogs application with specific AI and FOLIO workflows demonstration with participants being able to actual use AI with FOLIO. The pre-conference will end with open-ended call-to-action on how AI could be further integrated and adopted by FOLIO.*

*Morning Session*

*- Introduction to the full-day pre-conference on AI, Machine Learning, and FOLIO*
*- Types of AI and Machine Learning techniques relevant to Libraries*
*- Ethical Considerations in AI and Machine Learning for Libraries*
*- Exploring ChatGPT, Claude, and Google Gemini LLMs*

*Afternoon Session*
*- Generative AI Use cases for FOLIO*
   *- Automated metadata generation and enrichment*
   *- Improving user and technical documentation*
   *- Analysis and management of Financial Orders and Invoices*
   *- Collection management and optimization*
   *-Technical support for Orphaned Modules*
*- Recommended resources for further learning and professional development in AI and Machine Learning*
*- Next steps for adopting AI and ML in FOLIO*
___

We look forward to seeing you in London.

Thank you
